

Doctor-formulated

Clinically proven prebiotic and probiotic strains¹⁻⁸

Happy V Prebiotic + Probiotic is made with 9 clinically-proven ingredients and formulated at their clinically-proven dosages —This 100% natural Prebiotic + Probiotic works to balance vaginal pH and restore healthy vaginal and gut bacteria*

CLINICALLY-RELEVANT IMPORTANCE

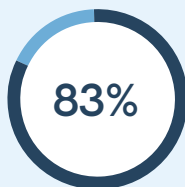

- ✓ Targets Bacterial Vaginosis, Candida Albicans, and Gastrointestinal Irregularity^{*1-10}

After experiencing first-hand the gaps that exist in meeting vaginal health needs in the 21st century, Happy V's curated team of OB/GYNs and nutritionists created a clinically-studied and clinically-proven solution, Happy V's Prebiotic + Probiotic. This prebiotic and probiotic supplement combination has targeted the root cause of bacterial vaginosis and yeast infections in hundreds of thousands of women.*

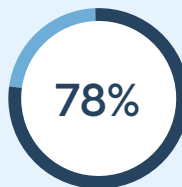

BENEFITS¹⁻⁸

- ✓ Supports immune, gut, and vaginal health*
- ✓ Eliminates bacterial vaginosis (BV)*
- ✓ Eliminates candida overgrowth*
- ✓ Balances pH levels*
- ✓ Eliminates the odor and itch*
- ✓ Improves vaginal discharge*
- ✓ Eliminates yeast infections*
- ✓ Improves vaginal flora*

BENEFITS FOR BV:

83% of women's BV symptoms disappeared within 6 months while taking LA-14® and HN001™ when compared to the placebo.*

BENEFITS FOR YEAST INFECTION:

78% of women experienced an absence of symptoms and negative candida culture in 6 months while taking LA-14® and HN001™

BENEFITS FOR GUT HEALTH:

Within a 24-hour period, women who consumed PreforPro® showed a 6-fold increase in lactobacillus in the large intestines.*

 Gluten-Free

BIOTIN^{2, 11, 12}

Biotin is shown to help maintain healthy gut microbiome. Also supports a healthy vaginal lining.*

LACTOBACILLUS ACIDOPHILUS (AS LA-14®)^{13, 14}

Helps promote a balanced vaginal microbiota by colonizing the vagina with healthy microbes, reducing the risk of BV and yeast infections.*

BIFIDOBACTERIUM LACTIS (HN019™)^{15, 16}

Supports healthy vaginal microbiota, relieves constipation, and enhances immune function.*

LACTOBACILLUS RHAMNOSUS (AS HN001™)^{17, 18}

Helps promote vaginal health by colonizing the urogenital tract with beneficial bacteria, reducing the risk of bacterial vaginosis, and enhancing immune response.*

LACTOBACILLUS CRISPATUS (AS CCFM1110™)¹⁹

Helps restore the vaginal microflora by reducing harmful bacteria and improving vaginal pH.*

LACTOBACILLUS GASSERI (AS HLG13™)²⁰

Can promote vaginal health by reducing the risk of bacterial vaginosis and improving the vaginal microbiota.*

LACTOBACILLUS REUTERI AS HR7™²¹

Promotes a balanced vaginal microbiota, reducing the risk of infections, and improving gut health.*

BACILLUS SUBTILIS (AS DE111®)²²
Improves gut health, promotes regularity, and enhances nutrient absorption. Also supports immune function.*

PREFORPRO®³⁻⁶

PreforPro is a bacteriophagic prebiotic proven to support the growth of probiotics and eliminate harmful bacteria in the gut and vaginal microbiome.*
